MACDONALD'S FIGHT TO SAVE JOB

London, Nov. 3 (AP)—The MacDonald government last today faced its first real test in the House of Commons as debate opened on an official conservative amendment to the address in reply to the speech from the throne.

Voting on the amendment, which was moved by Neville Chamberlain, will take place Tuesday night and a government defeat, while not expected, was remotely possible.

The amendment, designed to appeal to dissatisfied Left Wing Laborites, as well as Liberals, invited the House to express its regret at "failure of your Majesty's government to propose any measure adequate to deal with the crisis in the industrial, agricultural and commercial situation or to check the continued growth of unemployment."

In opening the debate, Chamberlain said:

"The Government alone in common sense has no sense of the gravity of the situation and no plans or fresh ideas to indicate how the situation may be met. They appear to have abandoned all hope and to be sitting helplessly waiting for something to turn up."

THIS IS A REALLY fine photograph of the old Museum of Fine Arts building, which on older generations of Bostonians remember as having been at the corner of Dartmouth st. and Copley sq., where the Copley-Plaza Hotel now stands. BRITAIN FRAMES JEWISH REPLY

London, Nov. 3 (AP)—The British Government is understood to be planning a statement to explain and amplify the recent memorandum on its Palestine policy.

Government critics hold the view that such a statement is necessary because of the criticism of the original memorandum among Jews in various parts of the world. The memorandum, it was declared today, has been misunderstood as well as misrepresented.

Actual completion of a supplemental statement has not yet been started by Lord Peel, Colonial Secretary, but it is thought the matter will be discussed this week by the Cabinet.

Berlin, Nov. 3 (INS)—"Down with the white collar!" This is the slogan under which the "Revolutionary National Socialist," a newly-formed German party under the leadership of Dr. Otto Strasser, urge a thorough revolution of men's garments.

Strasser proposes to replace men's garments with a new dress, which would be worn knickerbockers in the daytime and for work and long trousers for festive occasions.

A yachtman's cap is recommended for day wear and a more formal soft, broad-brimmed felt hat, to match the long trousers for night.

Little Kissable Lips Style This Winter

Paris Deceats That Mouths
Must Be Like Cupid's Bow,
and Cheeks Must Be Pale

Paris, Nov. 2 (INS)—Baby doll mouths.

This is the decree of Paris fashion stylists for the winter of 1930. After a lengthy run on the red and purple lips, the very small cupid's bow will come back for an instant. The very mark will be the favored shade, delicately defining the lips. Cheeks will be pale, with the most no rouge at all, in order to render the little red mouth more conspicuous.

KISSED DANGER SUES PAVLOVA

London, Nov. 3 (AP)—Anna Pavlova, the Russian dancer, and her husband, Victor D'Amico, were named defendants today in a "gossip" suit filed by Mrs. Elin D'Amico, one of the younger members of the dancer's troupe.

The allegation, which was denied, appeared from the testimony of Mrs. D'Amico, who said she was talking when the middle-aged woman kissed her on the cheek. She says reports of the incident were exaggerated by Pavlova and her husband.

EYE WITNESS DESCRIBES B-101 CRASH

London, Nov. 3 (AP)—A witness today in the investigation of the crash of the dirigible B-101 on the French coast, Alfred Statham of the Royal Air Force, described the crash as a tragedy.

He was running for refuge on a wooded territory when the ship crashed and fell into a field and exploded. He did not see or hear anything to tell of what he had seen because of the smoke which might have been ignited from the crash.

He said he saw about 20 yards from the dirigible when he first saw the crash.

Statham's testimony supported that of a previous witness who said there were no persons below the dirigible. He said he saw the ship crash and saw the explosion. He said he saw the ship crash and saw the explosion.

LEADERS LAUD POLICY OF W. R. HEARST

The solution of the prohibition problem offered by William Randolph Hearst in his nation-wide radio address last night met with hearty commendation today from citizens in every walk of life in Massachusetts. The views of some leaders follow:

MAYOR CURLEY—It was a remarkable and valuable contribution to the solution of a problem which is today sapping the very foundation upon which our governmental structure has been reared. The logic of his presentation should have weight with every thoughtful American.

FRANK S. DEARBORN—I agree with Mr. Hearst that government of the states and the nation should be taken away from the bootleggers. I congratulate Mr. Hearst on his statement.

GEO. C. R. EDWARDS—Our goal is the abolishment of the Eighteenth Amendment from the Constitution. Mr. Hearst's policy is a sound one.

WILLIAM J. McMOHR, Boston city collector—Mr. Hearst expressed my sentiments in his radio address. I am heartily in accord with him. His plan is a very good one and I am sure it will prove of great value to many persons who are now working to bring about a return of temperance. I believe that those who are working to bring about a return of temperance should be permitted to do so. I am of the opinion that there would be less drunkenness if it were possible to purchase liquor without breaking the law.

EDWARD JACKSON CURLEY, member of the Temporary Prohibition Committee—Mr. Hearst's suggestion is an ideal one and should receive the careful consideration of the members of Congress and the Senate. I trust that it will receive wholehearted endorsement by every American who desires to see our boys and girls protected from the bootlegger and from the evil influence of the places where these people thrive. Mr. Hearst's suggestion is a step in the right direction. Licensed hotels and restaurants where minors would not be served seem to be the one solution of the ever-growing problem of drinking among our young people.

Lipton Back in U. S. to Get That "Best Loser's" Cup

New York, Nov. 3 (AP)—Sir Thomas Lipton, perennial challenger for the America's Cup, arrived here on the Levantian today with the statement that he hoped and expected to challenge again in 1932 for the elusive yachting "Cup."

Here primarily on a business trip, Sir Thomas will be presented with the "America's Cup" by admirers throughout the United States who consider him worthy of the title of the "World's Best Loser."

Back in the United States a little more than a month after his fifth attempt to lift the America's Cup failed at Newport, Sir Thomas declared himself highly cheerful over the chances of success in his next challenge.

Charles E. Nicholson, designer of Shamrock V, will likely be commissioned again to design the new boat, but it is improbable that Captain Lipton will be re-elected as professional skipper, he said.

Old Banjo Clocks Specialty of Thief

Sudbury, Nov. 3—At least four valuable antique banjo clocks have been stolen recently in Sudbury, Waltham, Sherborn and Holliston by a thief, who is apparently an antique dealer. In each case the only article stolen was a banjo clock.

It was learned yesterday the latest theft was a work done at the house of Mrs. Frederick J. Whiting on Candy Hill rd., this town. A very old banjo clock, the property of Mrs. Marion Eaton, who is Mrs. Whiting's daughter, was stolen in the absence of the family.

Spaghetti Is Great Aid to Housewives

HUNDREDS of letters have poured into our office this week enclosing recipes for the big Macaroni Contest, proving that every day of the week housewives are preparing delicious meals with the help of spaghetti, elbow macaroni, egg noodles and cooked spaghetti. In order that you may share this traditional secret and further the household custom of serving these food-building a and easily digested foods throughout the year, this recipe contest was inaugurated, offering \$100 in prizes for the best original recipes sent in by New England housewives.

Many years of experience has made these favorite products as fine as they can be made, and home-makers appreciate the special process of manufacture, which enables them to serve these products after only 9 to 12 minutes' cooking. Nourishing, economical and quickly prepared, our favorite macaroni, spaghetti and noodles are unequalled. From the novel and distinctive recipes sent in by hundreds of women, we know they have found many satisfying dishes to take the place of meat, or a change from potatoes.

Food and health authorities agree that there is probably no better food for people of all ages than macaroni. These famous products, on account of their fine flavor, can be served plain by just garnishing with butter or meat gravy.

The daily problem of planning, preparing and serving nutritious, well-balanced meals to satisfy the taste and whims of each member of the family requires thought and skill on the part of the house-maker. In every menu foods should be so prepared and served that they are pleasing in flavor and appearance and offer wide variety. To balance the dietary it is necessary to provide in the proper amounts, protein, fats and carbohydrates, vitamins, minerals, and vitamins, all of which elements macaroni, spaghetti and noodles contain.

Why not plan at least one day a week to feature one of these delicious and nourishing foods in your menu? For instance, a good winter menu can be made up as follows:

- DINNER**
- Chicken Gumbo Soup
 - Spaghetti Chicken Liver and Mushrooms
 - Corn Fritters
 - Spinach
 - Egg Noodle Pudding
 - Coffee
- A delightful way of serving macaroni is demonstrated by the young lady in the picture today, and the recipe is also given on the page. We expect to receive a new supply of recipe books before long. Have you ordered yours? Faithfully yours,

Martha Lee

P. S.—The prize winners in the macaroni and spaghetti contest will be announced in a few days.

Lynn English-Salem Football Game to Be Broadcast

FRED HOEY, 'T 'MAKE' BIG CLASH

By BILL CONNELL

Schoolboy football will go on the air for the first time in Massachusetts when Fred Hoey, famous sports radio announcer, will be at the microphone of Station WHDH broadcasting the Lynn English-Salem high football game on Saturday.

The decision to broadcast was made when it became evident that the capacity of the Lynn field where the game will be played, would not accommodate the number of people who would want to see the game.

The estimated 10,000 fans who are expected to see the game will be seated in the stands, and the rest will be accommodated by the field of suitable capacity available.

There was some talk of moving the game to Boston, but the headmaster of Lynn English-Salem felt the contest should be played in Lynn.

Fred Hoey is best known in the public as announcer of the big league games broadcast in Boston, but his many years of experience as a newspaper sports expert and football official, make him one of the finest football announcers in the country.

Officials Must Be Selected

The officials for this important schoolboy game have yet to be selected. With the game only two days away, Lynn and Salem officials will have to move fast to select officials who have been signed to work in other games.

The Salem officials are the best of the kind in the state, and the Lynn officials are the best of the kind in the state.

Somehow, the officials must be selected in time to insure that the game will be played in the best of conditions.

Brookline showed unexpected strength in defeating Everett. The program favorite, Everett, was figured to win by a touchdown.

When the eleven scored three touchdowns and without much trouble, it served notice on Brookline that the contest will be at top strength on Saturday.

Brookline scored Cambridge Latin a bit lower in the suburban standing by its 14 victory. The Westley Town team landed the ball loosely at times. It will need to improve in that department before the Somerville affair.

Tony Gennaro again was the outstanding back on the field as he and his Lynn English team crashed Beverly, they scored two touchdowns to share honors with Art Jannelli, halfback, of Everett.

Lynn English Ready for Big Game With Salem

Tom Whelan was able to see his first string unit and make up his mind which was a good working arrangement for the game.

Brookline's crash, Saturday at Lynn, Salem also won easily Saturday and its attack was given a chance to loosen up with Northern P.D. back in top form for the first time in three weeks.

Paul Haffner, veteran fullback of Salem, was not used. Brookline, wants his entire team full for the Lynn game and no changes were taken with the team.

THREE MIGHTY MEN OF THE MAIZE AND BLUE

DAMON RUNYON PROVES HIS WORTH

By BILL SLOOM

New Haven, Ct., Nov. 3.—Yale came out of the Dartmouth battle with nothing more than the scoreboard than the Green possessed, which was nothing at all.

But the Elis emerged from the conflict with a major portion of the honor. Dartmouth had failed to live up to the prestige which had been credited to it as a result of that decisive victory over the Yale coaching staff, which had apparently been working on the assumption that the little college could not stand the bumps and knocks of an entire game.

Booth took as many losses at the Bowl Saturday as any back in this broad land is likely to take in an afternoon through the football season, but the finish of the game found him still on the job and apparently ready for more.

The fact that Booth can do so much as a ball carrier when he is watched more closely than any other back of the eastern section is proof enough that he belongs among the football greats of his day.

That he does two-thirds of his ball carrying while he is behind the line of scrimmage is a fact that adds to the value of his play.

He is a picture in the ring, and a running fullback when the game is in the air. For his size he is a good punter. I expect to see him develop into a great punter in the next year. He is now a punter in the making.

Chocolate One of Best Boxers of Present Day

Chocolate, in my opinion, is one of the master-boxers of these times. A little more aggressiveness would improve his style, to be sure, but he is a master in his own right.

Chocolate and LaBarba are undoubtedly among the outstanding featherweights of the day, and the featherweight of the future may reasonably claim a match for the title with Chocolate.

Bruins to Hold First Scrimmage of Season Today

ROSS PLANS PLENTY OF HARD WORK

Manager Art Ross and his crew of Bruins move into the Boston Garden, their own back yard, this afternoon, and from now until the season opens a week from tomorrow night, all hands will do plenty of hard work.

All last week the squad worked at the Arena, but the ice at the Boston Garden was not yet strong and he allowed no scrimmage. Ross requires more than a week of hard scrimmaging to get the team in shape for a campaign. There will be plenty of it during the next seven days. The first scrimmage is scheduled for tomorrow night. Through the Bruins didn't win the Stanley Cup last year, they were in the best season credit all time, losing only five games in 44 starts.

They may not do as well in the coming campaign, but the Bruins are stronger today than they did at the start of the 1929 season.

New Players Show Up Well in Practice

There are a half dozen new men in the squad and each and every one of them has looked great in the early practice sessions. Last year the team had two new forward lines, but the third line wasn't so hot. This season Ross ought to be able to develop a first-class third string line in the material on hand.

The preseason came has been a success for the Bruins. On next evening they will take on the Springfield Indians of the Canadian-American League in an exhibition charity match.

Powers Must Work Hard to Get Tigers Ready

Meanwhile Manager Eddie Powers must work hard to get the team in condition. The Bruins will be the entrance of the players of the United States but the rest of the squad, but Powers will be the players who will all fight all this week.

There is doubt about Earl Brown, who has trouble with the Seattle team and knows that he will not be sold until Seattle meets his bid.

With Deacon White drafted and Earl Contant, Herb Rheaume, and the others on the team, the Tigers will present a new team.

Powers must have another championship and the new players are going to do the stunt.

League champion and the Rhode Island Reds and the other teams in the league.

Powers and his team will open a championship season next Sunday at New Haven.

St. Joseph's Wins From Arlington

Although outweighed 10 pounds a man the undefeated St. Joseph's Junior H. M. R. blanked the Arlington Pals, 6 to 0.

The winners marched 40 yards in a touchdown in the opening round with Puncio scoring on a plunge.

Two field goals by J. Whelan and the Cambridge C. C. 6 to 0 win over the Cambridge C. C. at Dorchester Town Field yesterday.

Nonopet T. M. kept his undefeated streak, easily defeating the Cambridge C. C. of Dorchester before the game.

Mr. Boston

By JACK CONWAY

Mr. Boston says he looks for a rugged bout when Babe Hunt of Oklahoma and Napoleon Jack Dorval get tangled up in a 30-round bout at the Boston Garden on Friday night.

"Just above plenty of fighting ability when he stopped Les Faurie and then outwitted Jimmy Braddock in a 15-round bout last summer," said the veteran.

"I liked him particularly in the eighth round of the Braddock fight. Jimmy clicked on the button, and Hunt got a bad 15, thought he had been caught in the middle of one of those Oklahoma rushes."

"Babe, however, fought back instinctively. He weathered the storm and then came on to win the ninth and tenth rounds. I have always had a weakness for fighters who battle back hard after having been slugged. It proves they have the right kind of heart anyway."

"Hunt outscored Faurie Schaff in his last appearance here. That was a draw, but maybe it was a case of where both of the warriors had an off night."

"Hunt, by taking on Napoleon Jack Dorval, has proved he possesses plenty of confidence in his own ability. Dorval stopped George Cook and Annie Hansen in recent bouts at the Boston Garden, and has an idea of the kind of other heavyweights are also going down before his right hand punch."

"I saw Dorval hand Buggy Thompson a beating last week. New York a couple of years ago, and felt he was destined to go a long way up the pugilistic trail. He then bumped into a flock of inquiries and also got the desire to spend too much of his time hunting."

"Dan Carroll has made Dorval take the boxing game seriously and it looks as though 'N' Napoleon is going to gain his proper position in the heavy weight division."

New Hockey League Prexy Is Not Seeking Trouble

Chicago, Nov. 3 (NS)—The newly organized American Hockey League is "ready for anything" in the event of a conflict with the National Hockey League. President William F. Grant of the American loop declared in a statement today.

While saying he did not expect a "hockey war," Grant stated that "our circuit is closed, our schedule is drawn, all eight teams are in training and we can command just as much money for fighting purposes as the other league."

Referring to the American League's invasion of Chicago and New York, Grant declared: "The other fellows can call this an invasion if they wish, but we are merely expanding. We are not an upstart or an invader. The American League, as the American Association, is an older organization than the National."

Our agreement with the other league has expired and we are merely growing bigger. "We have agreed among ourselves to respect any National League contracts, but we will feel free to deal with any free agents or any player who is not legally bound to a National League club. We have gone ahead along these lines. If there is to be a war the first act will have to be made by the National."

PRODUCTS ALL STUNNAGE LOSS TO TRUCKS

The recent decision of the Interstate Commerce Commission in the Eastern Class Rate Case, raising rates on the first four classes of freight in the territory east of the Mississippi, will result in a large increase in motor truck transportation at the expense of the railroads, according to an analysis by the Chamber of Commerce in Boston.

Pointing out that the carriers do not have to have fully loaded trucks, the fact that the motor truck is today a real competitor of the rail line in every sense of the word, the Chamber of Commerce report reveals that the motor truck is competing for business within that area.

Any increase in the rate will enable the motor truck operator to operate at a profit and, consequently, with a consequent loss of tonnage to the railroads.

While at the present time the motor truck is competing for business with the railroad principally only with the first, second and third classes of freight, under the new rate schedule, under the new rate schedule, they will be able to compete for the fourth and fifth classes of freight.

Therefore, under the new rate schedule, the motor truck will be able to compete for the fourth and fifth classes of freight, and will be able to compete for the fourth and fifth classes of freight.

Under the present rate schedule, the motor truck is competing for business with the railroad principally only with the first, second and third classes of freight, under the new rate schedule, under the new rate schedule, they will be able to compete for the fourth and fifth classes of freight.

AIRPORT JOB TO PROVIDE WORK FOR MANY

The mud flat between Jefferson Point, East Boston, and Governor's Island will this week be the scene of a big expansion program when the massive hydraulic pump commences pouring more than 200,000 cubic yards of silt onto the flats beyond the present boundaries of the airport.

The contract for the work has been awarded to the Ray State Dredging Co. It was announced today by City Park Commissioner William P. Long, for their figures.

Roads will be advertised soon for construction of a complete ramp to be settled, long started, by engineers having completed their survey of the site of the bulkhead in view of the Colonial harbor.

The seaplane ramp will be constructed of heavy timbers, especially treated, and will be 200 feet of hard, durable surface in front of the bulkhead.

The project of duck kicked up by the planners of the harbor will be settled, long started, by engineers having completed their survey of the site of the bulkhead in view of the Colonial harbor.
